Date: May 17, 2109

Subject: RFP P406-19, Cochlear Implants, Addendum #2

Please add this Addendum #2 to the original RFP documents. It shall be the responsibility of the interested Offerors to adhere to any changes or revision to the RFP as identified in this Addendum #2.

The following clarification shall become permanent and made part of the procurement file.

1.   Will extension to existing agreements be considered? Will you be providing your agreement template for redlining prior to the RFP submission?

      This is a new RFP solicitation and extensions to exiting agreements will not be accepted.   UNMH will enter into an agreement with the successful Offeror(s) and redlining of agreement(s) would occur at time of award.

2.   Section 3.41 states the offer made will be good for a minimum period of 365 calendar days. Should that state maximum? If we have changes to products within that time frame, how do we submit those changes to you?

      UNMH requires that your offer be good until time of award or for 365 days, whichever comes first. After the due date and time no changes to your proposal will be accepted.

3.   In the RFP, Section III, the term of the agreement is not defined, just the minimum period of the offer. Can you please define the term of the agreement? The initial term of agreement is the period in which your pricing will be firm.

      An initial term would be defined as the period of time in which the pricing will be firm. UNMH prefers an initial term of three years. Agreements may be extended past the initial term by written amendment up to ten (10) years. The initial term proposed by the OFferor(s) will be considered when scoring respondents proposals.

4.   In Exhibit G, due to multiple product configurations, should we add additional rows to address the different configurations?

      Yes

If there are any questions or inquiries in relation to this Addendum #2, Offerors may contact Anna Silva at (505) 272-9571 or by email at amsilva@salud.unm.edu.
